

ESTHER CHIDIMMA ONYEKWERE

JUNIOR QA TESTER | SOFTWARE TESTING | WEB APPLICATION

PROFESSIONAL SUMMARY

Detail-oriented Junior QA Tester with hands-on experience testing web applications across e-commerce, travel booking, HR systems, and ticket booking platforms. Experienced in designing and executing 120+ test cases, identifying 18 high and medium severity defects, and collaborating within Agile Scrum teams to ensure product quality.

Skilled in manual testing, test case design, bug tracking, automation testing using Cypress, and performance testing using k6. Proven ability to analyze requirements, identify defects early in the development cycle, and contribute to delivering reliable and user-focused software.

TECHNICAL SKILLS

Testing Types

1. Regression Testing
2. Exploratory Testing
3. Cross-Browser Testing
4. Performance Testing
5. Functional Testing

Testing Practices

1. Test Case Design
2. Bug Reporting & Defect Tracking
3. Requirement Analysis
4. Test Execution
5. Agile Testing (Scrum)

Automation & Performance

1. Cypress (End-to-End Test Automation)
2. k6 (Performance Testing)

Tools

1. Jira
2. TestRail
3. Git & GitHub
4. Chrome DevTools

Languages

1. JavaScript (Basic)

QA PROJECT EXPERIENCE

Web Application Testing Projects

Manual QA Tester | Agile Environment

Tested multiple web applications including Travel Booking, HR Management (OrangeHRM), Movie Ticket Booking, and E-commerce platforms (Temu, Swagbucks, Saucedemo).

Key Contributions

1. Designed and executed 120+ manual test cases covering functional, regression, and exploratory testing scenarios.
2. Identified and reported 18 defects with clear reproduction steps, severity classification, and supporting evidence using Jira.
3. Conducted cross-browser testing to ensure consistent functionality across different browsers.
4. Collaborated with team members during daily standups, sprint planning, and sprint reviews within an Agile Scrum environment.
5. Validated critical workflows including user authentication, search, product selection, checkout processes, and booking flows.
6. Improved test coverage by validating edge cases and negative scenarios during exploratory testing.

TEST AUTOMATION EXPERIENCE

Cypress Automation Testing

Developed automated end-to-end test scripts using Cypress to validate key user flows.

Automated Scenarios

1. User login authentication
2. Add to cart functionality
3. Checkout process

Achievements.

1. Created reusable test scripts to verify core application functionality.
2. Used assertions to validate UI behavior and expected outcomes.
3. Executed automation tests to support regression testing.

PERFORMANCE TESTING

k6 Performance Testing

Developed performance testing scripts using k6 to simulate user traffic and analyze application performance.

Contributions.

1. Wrote k6 performance test scripts to simulate multiple virtual users.
2. Evaluated application performance under load conditions.
3. Generated HTML performance reports for analysis and documentation.

EDUCATION & TRAININGS

Bachelors of Education |University of Jos, Jos

2019

Guidance and Counseling (Economics)

Software Testing Training Programs

1. Manual Software Testing
2. Agile Testing Practices
3. Test Case Design & Bug Reporting
4. Automation Testing Fundamentals
5. Performance Testing Fundamentals

PORTFOLIO

GitHub Repository:

Includes:

1. Manual test cases
2. Bug reports
3. Cypress automation scripts
4. Performance testing scripts using k6

GitHub: [github.com/estheroyekwere-lgtm]

TOOLS & TECHNOLOGIES

- k6
- Jira
- TestRail
- Cypress
- Git & GitHub
- Chrome DevTools
- Microsoft Excel
- Microsoft Word
